LAMAS
OBJECTIVES

The Los Angeles Metropolitan Area Survey is an omnibus survey put into the field twice a year by the UCLA Survey Research Center. It is an omnibus survey in that it seeks information about several distinct subjects and therefore does not have one theme, e.g., air pollution. Most LAMAS surveys will attempt to gather information across a broad set of topics which have to do with the QUALITY OF LIFE in the Los Angeles area (both city and county).

RESPONDENT
QUESTIONS
PURPOSE

If a respondent questions the purpose of the survey, explain that it is being taken to obtain people's evaluations about the quality of life in Los Angeles County.

Why This
Household?

If you are asked why you are interviewing this particular household, explain that this happens to be one of the representative addresses picked by random selection. Taken as a group, the people living at these sample addresses will represent the total population of Los Angeles County.

Letters and
Credentials

To protect yourself and the Center, and to assure the respondent you are a legitimate survey interviewer, ALWAYS show your credentials (ID card and letter of introduction signed by the Assistant Director). The Center has mailed a letter to all the sampled households informing them that an interviewer will be coming, giving them your name and facsimile of your blue ID card. Show this card and all other credentials whether or not R asks for them. Refer to the Interviewer Manual (p.13) for further information on what to tell the respondent about yourself the Survey Research Center and this particular study.

Respondent
Questions
Time Required
for Interview

If the respondent asks how much time will be required for the interview, tell him that the usual length is between forty-five minutes and one hour. Do not say that the interview will take only a few minutes.

If the respondent states that he has no time right now for an interview, find out when you can come back. However, always assume (without asking) that the respondent has the time right now unless he tells you otherwise.

Refusals

Our experience has been that very few respondents actually refuse to cooperate. However, if you have difficulty in obtaining an interview, explain the purpose and importance of the survey and **STRESS THE CONFIDENTIAL TREATMENT ACCORDED ALL INFORMATION FURNISHED BY THE RESPONDENT**. This should be done also at any point during the interview if the respondent should hesitate to answer certain questions.

Your Manner

Your greatest asset in conducting an interview efficiently is to combine a friendly attitude with a businesslike manner. If a respondent's conversation wanders away from the interview; try to cut it off tactfully--preferably by asking the next question on the questionnaire. Over-friendliness and concern on your part about the respondent's personal troubles may actually lead to your obtaining less information.

It is especially important in this survey that you maintain an objective attitude. Do not indicate a personal opinion about replies you receive to questions, even by your facial expression or voice. Your own objectivity about the questions will be the best method for putting the respondent at ease. Do not offer information on the meaning of questions or try to explain what words mean. Do not offer your own views in any fashion. What seems to be a pleasant aside to you, may bias the respondent's answers to the next 10 questions! In short, read the questions in a friendly fashion, listen to responses with apparent interest and record verbatim where indicated.

If Other Persons Are Present

If other persons are present, suggest to the respondent before beginning the interview that he might prefer to talk to you in a more private place. Even though a respondent might refuse to be interviewed under these circumstances, the presence of outsiders might cause a reluctance to talk about such things.

HOW TO ASK THE QUESTIONS

Follow the Order on the Questionnaire

Ask the questions in the order specified in these instructions. If you follow instructions carefully, paying attention to skips, the interview will flow in a logical fashion.

Ask Each Question Exactly as Worded

Ask each question exactly as it appears on the questionnaire. The wording and order of the questions have been tested previously and are designed to obtain the desired information. Do not reword any question. Read to the question-mark and stop. Do not read material in caps; these are instructions to you.

Ask every question unless a skip is specific. If you think the respondent has just answered the same question say, "This may seem repetitious but I have to read every question to make sure I record your opinions accurately." Then read question as stated.

Listen to the
Respondent

Listen to the respondent until he finishes each statement. Failure to do so can result in your putting down incorrect or incomplete entries. The two most common errors of this type are:

- (a) Failing to listen to the last half of the sentence because you are busy recording the first half.
- (b) Interrupting the respondent before he has finished, especially if the respondent hesitates. A respondent often hesitates when trying to recollect some fact, and you should allow sufficient time for this to be done. Also, people will sometimes answer, "I don't know," when actually they are merely considering a question. When you think that this may be the situation, wait for the respondent to finish the statement before repeating the question or probing.

Repeat the
Question When
Necessary

The respondent may not always understand the question when it is first asked, and sometimes you can tell from the answer that the question has not been understood. In this case, repeat the question using the same phrasing as you used originally; this should not prove to be embarrassing since what you said the first time was not heard or understood. Frequently the respondent is capable of understanding the question but has missed a word or two. If you think it is helpful, you can preface the repetition of the question by a phrase such as "I see" or "Oh, yes" and then repeat the actual question. A conversational tone will go far in making the question sound new, even though you are using exactly the same words.

Repeating the
Answer

Sometimes it is helpful to repeat the respondent's answer and then pause expectantly. Often this will bring out additional information on the subject. It is also useful as a check on your understanding of what has been said, especially if the statements or comments given have not been entirely clear.

How to Respond
to a "DON'T KNOW"

The purpose of the interview is to provide reliable information on opinions of the respondent. Often the most important piece of information we can gain is that a respondent does not have an opinion on a particular issue. Some respondents preface every statement with "I don't know" even though they do have an opinion. This is why you have been taught to probe "don't know." Others mean what they say. If you over-probe a "don't know" these respondents may think up a random answer just to get you to stop nagging them! Never probe a "don't know" by saying such things as "take a guess" (if we want R to guess the question we'll state that) or "there must be something you like about this city"-- he may hate the place! A good rule of thumb is to probe a "don't know" once with a general question: "Well, do you have a general opinion one way or another on this issue. . ."

Pacing the
Interview

Try to avoid hurrying the interview, even under trying circumstances. If the respondent senses that you are in a rush to complete the questions and get out of the house, he will probably cooperate by omitting important information he feels would take too much time to explain and record. Maintaining a calm, unhurried manner and asking the questions in an objective and deliberate way will do much to promote an attitude of relaxed attention on the part of the respondent.

Assurance of
Confidentiality

Periodically throughout the interview (whenever you deem it advisable), reassure the respondent that all the information is strictly confidential and that it will be seen only by persons engaged in the survey and will be used for research purposes alone. The respondent's answers will not be disclosed or released to others for any reason.

Illiterate
Respondents

It is possible that some respondents will not know how to read. Be alert for signals of this, both at the start and at the close of the interview. If you think he is illiterate suggest tactfully that you read the letter of introduction and/or the statement cards to him.

Spanish-
Speaking
Respondents*

NON-BILINGUAL INTERVIEWERS, PLEASE READ:

If the respondent does not speak English, do not interview. Note on the schedule that the respondent speaks Spanish only and call the field supervisors once you leave. Each interviewer will carry Spanish versions of all the introductory materials and a card explaining in Spanish that a bilingual interviewer will be assigned that household; you are requested to leave these with the respondent.

NOTE:
POLICY FOR
"DON'T KNOWS"

Whenever the interviewer receives a "don't know" response that is not pre-coded on the questionnaire (alternative answers to questions are not followed by "DON'T KNOW" with separate code number), he must write clearly the abbreviation "DK" immediately following the alternatives listed for the question.

Use of Cards

In a recent community study, there was some problem with use of the cards. Proper use of the cards is an important part of your job as an interviewer, so please observe the following guidelines:

1. Always have cards with you when you go out into the field.
2. Check that R is looking at the appropriate card for the question you are asking.
3. Never paraphrase or alter what is on the card without SRC instructions.
4. If you see that R is having difficulty reading cards, then read them to him.

Probing

Study pp. 20-23 in the Interviewer Manual.

Final Probes

Unless specified, all open-end questions must have a final probe. This is your way of telling us R has no further information on a subject. Checking for final probes is a part of the editing process so make sure you always use and record them.

The (W.E.) "What else can you tell me about (...)" is a final probe you will probably see most often. If R gives you no new information, record his response to the (W.E.) verbatim, e.g., "(W.E.) I can't think of anything else."

When you have a question that asks R to list things, e.g., problems in Los Angeles and the United States, you can say, "What other problems..?" and indicate this probe with (OTHER). If R has given two problems and says "Nothing else" to your (W.E.) or (OTHER) probe, record the probe and his answer verbatim on the next line, a line where R might have thought of another problem. This is very important because it tells us he could not think of any more problems, or whatever the question refers to.

Editing

Study pp. 8-9 in Interviewer Manual and see new Time Sheet in the Appendix.

Verification

The SRC Quality Control division has a standard verification questionnaire. We make a random selection from your completed interviews and telephone the respondent to verify that you did conduct an interview with him. Verification, like editing, is another way of evaluating your performance as an interviewer.

STUDY DATES

The interviewer briefings will be held February 5 and 6. Each interviewer will be assigned one of those dates and should arrive promptly at the Survey Research Center, 1020 Graduate School of Management at 9:30 A.M. The study starts the minute the interviewer has left the briefing. The project ends March 21. We must in all cases adhere to that date because several important reports must be written shortly thereafter. The Field Supervisor will be monitoring each interviewer's assignment very closely, and therefore, you can expect to hear from them if you drop behind in your weekly mailings. If for any reason during the field work period you find that you cannot cover your assignment you must contact the field office so that we can arrange for a transfer of your assignment to another interviewer. All interviews must be mailed to SRC by March 20 at noon.

PRACTICE INTERVIEW

A few days before the LAMAS VI briefings, each interviewer will have received: (1) a questionnaire, (2) an interviewer instruction booklet ("spex"), (3) a set of question cards, and other field materials. As usual, you are to study and become thoroughly conversant with all the material and especially the interview schedule. When you have done this, take a practice interview with someone you do not know. Identify that interview by writing "PRACTICE" and bring it with you to the briefing for discussion purposes.

Checklist for
Editing

Here are some things to check while editing.

A. Call Record and LABEL

1. Your name and ID number wherever needed.
2. All days and dates entered on the Call Record; make days and dates agree.
3. Enter all times of contact and circle "AM" or "PM" in proper places.
4. Enter type of contact, i.e. "personal" or "telephone" (circle code).
5. Be sure that the code explaining the result of your call is properly entered with both code number and letter abbreviation.
6. Circle LABEL properly indicating # of adults and # of respondents.

B. General Information

1. Be sure both the adult roster and the "17 and under" roster are completed properly.
2. Make sure you have NO double codes on pre-coded questions, unless otherwise specified; NOTE: If after you have probed, R still cannot choose one alternative, note his choices on the side and DO NOT circle codes.
3. Check that all SKIP instructions have been followed.
4. All open-end questions show a final probe and R's verbatim response.
5. Be sure to get answers to questions as they are worded on the questionnaire; if you feel any question requires additional comments from you indicate at question and write question number and your comment on Page 42.
6. Be sure to circle proper codes in all boxes.
7. Slash out Q96 if you do not have to ask it. (See p. 38A for designated tracts.)
8. Be sure you **complete** background material on Page 41.
9. Be sure you get R's name and telephone number on Page 43.

Computer Generated
Label

This label contains vital information relating to the specific household address:

Lines 1 and 2

ID = The unique number given to each household address (001 -1640)
REG = Region number - the SRC divides L.A. County into ten regions (01 - 10) for sampling purposes
TRACT = Census tract number in which the household address is located
BG/ED = Block group or enumeration district number within the above Census tract
BLK = Block number within the above BG/ED
LBLK = a statistical block
CLUST = a group of DU's
TABLE = One and only one letter designating what we call the selection TABLE which is used for the particular household address. (There are eight (8) different letters: A, B₁, B₂, C, D, E₁, E₂, F.) To repeat: Only one letter appears for the household address.

Lines 3 and 4

The household address

Lines 5 and 6

This is the selection TABLE to be used at all times in selecting the proper respondent in the household. See Interviewer Manual, pp. 44-51 for sample households and their selection processes.

NOTE: Please check to see that the labels appearing on pages i, 1 and 43 are identical. If not, immediately call the SRC Field Office.

Call Record Sheet

The call record is stapled to each questionnaire. For all calls (in person or by telephone) at the interview address, one line of the contact page should be completed. Enter date, day of week, time, whether personal or telephone contact (first calls in person only), and result. Under result enter the two-digit code (see box at bottom of page) and the letters corresponding to that result code, e.g., (NH)-01.

If the interview attempts end in a non-interview, enter (NI)-82 under result, and specify the reason on the next page. (p. ii) Note that (on p. ii) the left-hand column is used by the first interviewer, and the right hand column is reserved for the second interviewer, if one is assigned because of a non-interview.

We have provided you with some code numbers in the box in order to save you time in writing call results. If, in a particular situation, the codes do not fit, you will have to record the result verbatim. (See APPENDIX A for additional examples of Call Record Sheet.)

F,G,H

This information must be recorded for the first person contacted in all circumstances; that is, even if the first person contacted is the adult roster giver (see questionnaire p. 2) and/or the respondent.

NOTE: If first person contacted states that he is not a member of the household (i.e., a babysitter, etc.) record this on Call Record Sheet and do not fill in F, G, H.

If you find out afterward that first person contacted is/was not a member of the household, then, as you edit the interview, put a slash (/) through items F, G, H and note why this was done.

Number of Calls

The Call Record Sheet and the Supplementary Call Record Sheet have been greatly expanded to help you in recording each attempted contact with a particular respondent or household. For those respondents who prove difficult to contact, we ask that you make four (4) calls on different times and days. The pattern is as follows:

Your first call can be at any time on any day. Thereafter, your guide will in part be the TABLE letter (A, B₁, B₂, C, D, E₁, E₂, F) on the computer label. For those interviews having TABLE letters A, B₁, B₂, the second (2nd) call must be on a late afternoon or evening of a weekday or during any weekend time. The third (3rd) call should be on a weekday evening but not on the same day as the previous call. The fourth (4th) call should be on a weekend or an evening.

For those interviews having TABLE letters (C, D, E₁, E₂, F), your first two calls can be during the daytime but at distinctly different daytime periods (e.g., (1) 10:00 AM (2) 3:30 PM). Third and fourth calls should be evening or weekend contacts.

However, we do permit you to stop back at an address if you are working on that block or in a nearby area. Needless to say, we cannot afford long travel times and mileage charges. If you are in the area by all means continue to call, but make sure you record each time you do.

Record all attempted telephone contacts (if you have secured a telephone number via a name on a mailbox, etc.). If telephone is busy, record: RBY - 05.

Non-Interview

All non-interviews are recorded as (NI)-82 on the Call Record Sheet regardless of the reason. Under Section L, record specific reason for non-interview. For example, if dwelling unit is vacant, circle (01). Record as a non-interview, (NI)-82, on the Call Record Sheet.

Refusals

Use the codes in Sections L through O for non-interviews where there has been any personal contact with someone in the dwelling unit. If the reason for non-interview is a refusal, fill out information required in Sections M through O. Record this information carefully so we can decide if our sample is a true cross-section of Los Angeles County.

NOTE: Ignore sections P, Q, R, S unless this interview has been reassigned to you.

Supplementary Call
Record Sheet

Each interview schedule will have attached to it one Call Record Sheet (p. i). Each interviewer will be given a few Supplementary Call Record Sheets (p. i a) to be used in case you run out of space on the first sheet (p. i). Needless to say, the supplementary call record sheet should be attached to the interview schedule and it is most important that you record the questionnaire ID number (taken from the computer label) on the Supplementary Sheet and your interviewer ID number. Continue using the appropriate code numbers found in the box at the bottom of the page.

Good morning/afternoon/evening. I'm from the UCLA Survey Research Center. You may have received a letter from our Center telling you about the survey we are doing in Los Angeles. We are interested in finding out how people in the Los Angeles Metropolitan Area feel about the community, what problems there are and what is needed for the future. The information we collect will be written up in reports for local officials and in the local newspapers. Your opinions are very important because you have been chosen scientifically to represent hundreds of other people in Los Angeles. The more people who cooperate, the more successful we can be in reporting the needs of all the people in this city. **EVERYTHING YOU TELL US WILL BE STRICTLY CONFIDENTIAL. YOUR NAME WILL NOT BE CONNECTED IN ANY WAY WITH THE FINDINGS OF THIS IMPORTANT STUDY.**

A3. First, I would like to make a list of the persons 18 years old or over, who live here as members of your household. This will tell me which adult I am to interview. (AFTER RECORDING INFORMATION IN "A," ASSIGN NUMBERS IN "E" WITH OLDEST MALE = 1, SECOND OLDEST MALE = 2, ETC. AFTER ALL MEN ARE NUMBERED, CONTINUE WITH WOMEN BEGINNING WITH OLDEST TO YOUNGEST.)

A1 Please be sure that your name and interviewer ID number are placed in the proper spaces. Your ID number is the two-digit number assigned to you by the field supervisors.

A2 It is most important to accurately record the beginning and ending time of the interview and also to insert the length of time it took in minutes (e.g., an interviewing time of one hour and four minutes would be recorded as 64 minutes).

Whom to Interview

A3 The Survey Research Center requires its interviewers to follow exactly a special process of respondent selection. You are asked to gather some information about the members of each household aged 18 and over. (For each, complete A -D.) After probing to be sure that no other person in the household (e.g., a lodger, a maid) has been omitted mistakenly by the respondent, begin numbering (in Column "E") the household members. The oldest male is "1," the second oldest is "2," and so on until all males have been assigned a number; assign the next consecutive number to the oldest female, and continue in order by age until all females have been numbered. Thus, we have a numerical ranking, with the lowest number (i.e., 1) given to the oldest male and the highest to the youngest female. (See examples in MANUAL, p.48-51.)

Using the selection table provided you on the computer-generated label which is located at the top of this page, determine exactly who the respondent is. Unlike many market research firms and polling organizations, the Survey Research Center DOES NOT ALLOW SUBSTITUTIONS UNDER ANY CIRCUMSTANCES. It may happen that the person who has provided you with this basic household information is designated to be the respondent; if so, you have actually begun the interview. If another household member is to be the respondent but is not at home, try to ascertain when he will be home so that you can return at a convenient time and take the interview.

Results from LAMAS v show that the selection table really works! The percentages of males and females are just slightly above the Census figures for Los Angeles County. Your work in selecting and interviewing the proper respondent really paid off!

- A. Ask for first names only and USE when asking columns B, D and F.
- B. Please make sure that you get the exact relationships of individual household members to the head.
- F. Please use the marital status code provided on the contact sheet. Insert the proper number.

(YOU WILL NOW KNOW WHICH ADULT IN THE HOUSEHOLD YOU ARE TO INTERVIEW. IF THAT PERSON TO BE INTERVIEWED IS THE SAME PERSON AS THE "INITIAL CONTACT" YOU ARE ALREADY TALKING TO, ASK QUESTION A4. IF IT IS NOT THE SAME PERSON, ASK QUESTION A5.)

A4. In checking my sampling table, I see that you are the person I am supposed to interview in this household. For the last part of this section, then, would you give me some information on those persons under 18 years old who are living here as members of your household? Please begin with the youngest person.

A5. In checking my sampling table, I see that the person I am supposed to interview is _____. But before I turn to that interview, would you give me information like before on those persons under 18 years old who are living here as members of your household? Please begin with the youngest person.

After completing the adult roster, we ask you to collect information on other members in the household who are 17 years old or younger. We ask that you specifically tell the contact to recall those 17 years of age or younger, beginning with the youngest. We hope that by doing this it will stimulate their memories. Use question A4 if the person to be interviewed is the same person as the "initial contact" you are already talking to. If it is not the same person, ask question A5.

The "Pre-School" category for school attended refers to any public, private, or parochial school or day-care setting which is pre-kindergarten. "Public" and "Parochial" codes are only given for kindergarten and higher levels of school.

Letter of Person
Who Gave Roster

The person who gave the roster may have been an ADULT (letters A-G) or a person 17 or under (letters H-O.) Do not forget to insert the proper letter in this space.

Ethnicity of Roster
Giver

This information must be recorded by you from observation of respondent or other information obtained (Spanish surname, etc.) Even if the first person contacted was the roster giver and/or the respondent, you must record this ethnicity information.

NOTE: If the roster giver is a non-household member (e.g., babysitter, visiting relative, maid, etc.), note this fact and do not record ethnicity.

1. How long have you lived in the Los Angeles area?

(IF LESS THAN ONE YEAR, ENTER NUMBER OF MONTHS: _____) YEARS: _____

2. In the past (...) years/months since you first moved to the Los Angeles area, how many times have you moved from one house or apartment to another?

NUMBER OF MOVES: _____

3. Do you own or rent this place?

- OWN..... 1
 - RENT..... 2
 - OTHER..... 3

4. Now, thinking about problems we have here in the Los Angeles area (city and county), what do you think are the most important problems we have in Los Angeles?

(1) _____

(2) _____

(3) _____

(4) _____

(5) _____

IF NO PROBLEMS GIVEN, SKIP TO Q5

A. Which of those is the most important problem?

- Q1. Please be sure that you record YEARS or MONTHS in the correct space. The Los Angeles area is defined as the city and county; no adjacent counties are to be considered even if the person lived in a house near the border.
- Q2. Insert the answer given in Q1 when asking Q2. The first move into the Los Angeles area does not count in the number of moves. We are looking for the total number of moves within the Los Angeles area.
- Q3. If you must use the "other" category (i.e., for a lodger, live-in maid, etc), please be specific.
- Q4. You do not have to record verbatim answers to this question. Write key words in R's answer. However, for this question, we do not accept phrases such as "law and order" or "inflation" without probing to see what the respondent means by these terms. Inflation to one person may mean higher food prices whereas to another person it may mean unemployment, etc.

For the person who runs a series of problems together and relates them to a single cause, try to disentangle them by probing.

The examples given below may help you in handling Question 4.

PROBLEMS IN LOS ANGELES

UNACCEPTABLE ANSWER

Politics (ex) Mayor Yorty
 (other) Transportation
 (other) Law and order (mean) Crime
 (other) Taxes
 (other) Central city (ex) decline

ACCEPTABLE ANSWER

Politics (ex) Mayor Yorty (mean) not a strong leader
 (other) Transportation (mean) need mass transit
 (other) Law and order (mean) Crime (ex) assaults increasing
 (other) Taxes (ex) too high (what) property
 (other) Central city (ex) decline (mean) need new business there
 (other or W.E.) Nothing

Q4. Part A

Ask for most important problem listed in Q4. If the selected problem has many aspects, e.g., "Inflation (ex) high food prices, unemployment, more taxes," ask R which of these aspects of inflation is the most important problem.

Questions 7 through 30 concern the health of the respondent only. Please note that some of these questions are asked for different time periods (e.g., the last two months, the past year). Please be sure that R answers the questions for the specific time period only.

Q7. Be very careful that you get across the time element in the question, i.e., the last two months. "Away from your usual activities" means away from job, recreation, school, etc. If R is disabled such that his "usual activity" is to stay in bed or indoors, record any other health condition he may have had in the past two months (e.g., flu) which limited his activities even in small ways.

Q7A. Please try to have R give you an exact number. If that is impossible, then get him to tell you ABOUT how many times.

Q7B. List the condition(s) that R mentions in the boxes below next to 1ST TIME, 2ND TIME, 3RD TIME. Obtain sufficient information to accurately identify these condition(s).

Ask B1, B2, and B3 for the 1ST TIME before going on to the 2ND TIME AND 3RD TIME.

For B1, try to have R give you an exact number. If that is impossible, then get him to tell you ABOUT how many days.

Refer to Q7A to check the number of times R was ill. Read carefully before following the SKIP pattern.

Q11, 12, 13

Referring back to the number of times R saw the doctor in Q10, we want to know what kind of doctor, the place where R saw the doctor and the major reason for each visit mentioned. For each time Q11, Q12, and Q13 are to be asked in that order. Be sure to use Cards #11 and 12 for kind and place and transfer the letters carefully into the boxes. In Q13, read all three reasons before circling the right number.

After referring to both Q7 and Q9

NOTE: be sure to circle the appropriate code and follow the SKIP pattern.

Q14.

This question is to be asked only of those who have had a health condition in the past two months but did not see a doctor. Record the letter next to the reason in the box to the right for the most, second most and third most important. Only 3 responses are to be taken. If R gives "OTHER" as one of his important reasons, code with the letter "M" and specify what this reason was.

39. How many days was (...) in the hospital including all hospitalizations anywhere?

SKIP TO Q40

Q33. Straight forward. If R says "NO," circle code and SKIP to Q36. If R says "YES" circle code, ask "WHO?" and list on chart on page 15. Use "ANYONE ELSE?" to make sure the list is complete. If you get any new names--those not appearing on chart on page 13--record age and circle sex. For names that are the same, record age and sex as you EDIT later on.

Q33A. For each person listed ask how many times he/she saw the
Q34. doctor, and do not count any hospital days in this time.
Q35. For each time, record LETTER of kind of doctor seen, and LETTER of place where he was seen. (See the examples on the chart in the Spex.) Repeat Q33A, Q34 and Q35 for each name listed before going to Q36.

Q36. Self-explanatory. If R says "NO" circle code and SKIP to Q40. If R says "YES" circle code and ask "WHO?" using the probe "ANYONE ELSE?" to make sure your list is complete. Remember, you may have new names at this point so you must ASK age and circle sex (M or F).

Q36A. Again, we want the number of times the person was hospitalized
Q37. overnight. For each time hospitalized, record the condition(s) or describe symptoms if R does not know the name(s). Repeat Q36A and Q37 for each name listed.

Q38. Show CARD #38 and ASK if any of those listed have been hospital-
Q38A. ized at any of the specific hospitals on the card. If so, record LETTER(S) of the hospital and for each one recorded ask the number of times the person was there. If R says "OTHER" record LETTER, do not specify but ask for the total number of times the person was in this/these unnamed hospital(s).

Q39. For each person listed ASK the total number of days that person was hospitalized anywhere, counting all hospitals.

Chart for Q33, Q33A, Q34, Q35, Q36A, Q37, Q38, Q38A and Q39

This is the chart you will be recording on. We have filled it in to give you some examples of how it works.

Now I'd like to ask you a few questions about sleep.

42. How long does it usually take you to fall asleep once you're in bed and set for sleep? (That is, three or more nights a week.)

 NUMBER OF HOURS: _____

Q40. Straightforward. If R says "NO" circle code and SKIP to Q41. If R says "YES" circle code and ask "WHO?" using probe of "ANYONE ELSE?" to make sure the list is complete. If any new names are mentioned ask age and circle sex (M or F); for the others record age and sex when you EDIT later on. Make sure you put a check in column Q40A for each person R says had a dental condition.

Q41.
Q41A. If R says "NO" circle code and SKIP to Q42. If R says "YES" ask "WHO?" and probe with "ANYONE ELSE?" to get complete list. Ask age and circle sex (M or F) of any new names. For each person listed ASK the number of times he/she visited the dentist and record under "# of visits" column next to the person's name. Repeat Q41A for each person listed then go to Q42.

Q42. By usually, we mean three or more nights a week. Make sure R mentions minutes or hours before writing the number of the correct line.

Q43. Once again, usually means three or more nights a week. Record the response and follow the SKIP pattern.

Q43A. Try to obtain an exact number if possible. Otherwise ask R ABOUT how many times.

Before you do any interviews, correct Page 17 of each of your questionnaires. Correct it to look like this page in the Spex (without the examples, of course). We made a mistake when we set this up so you have to change each questionnaire in order to record the information properly. Beginning with Q40 ask who had a condition and check under Q40A those who did have them. Then go to Q41 and record number of visits for each person who went to the dentist.

44. Do you usually wake up too early--that is, sooner than you have to or would like to, and then can't get back to sleep at all? (That is, three or more nights a week.)

IF R HAD NO SLEEP PROBLEMS IN 45A, ASK: Would you please look at this card again, and tell me if you have had any of these sleep problems in the past? (RETURN TO CHART ABOVE AND CODE IN COLUMN C.)

Q44. Usually refers to three or more nights a week.
Record your answer and follow the SKIP pattern.

Q44A. Straightforward. Record your answer carefully on the appropriate line, that is, minutes or hours.

Q45A. Be sure R is looking at Card #45. If R has no sleep problems, check the box and SKIP to Q45C. Otherwise, for each problem R mentions, circle the code number in column A and then ask Q45B for each sleep problem R mentions.

Q45B. When recording the response(s), be sure you are entering the figures correctly either under #Months or #Years. If an exact number is unobtainable, ask ABOUT how long.

Q45C. Read the instructions for this question carefully. If R has mentioned one or more sleep problems, you are to ask about other problems he/she may have had in the past. If R has no sleep problems now, then refer to the card again and ask if he/she had any of the problems in the past.

48. I'm going to read four things people sometimes say about discovering who they really are. For each please tell me whether you strongly agree, agree, disagree or strongly disagree.

- A. The way to find out who you really are is to forget duties and inhibitions and do just whatever you feel like doing.
- B. The way to find out who you really are is to help someone who needs your assistance.
- C. The way to find out who you really are is to work hard at a difficult and challenging task.
- D. The way to find out who you really are is to tell your deepest feelings to someone you trust.

D.	1	2	3	4	5

Q46. This question asks about medicines taken by R to help him sleep. If R asks "What do you mean by medicine?" say; "Whatever you consider as medicine." For example, anything that would relax R and help him get to sleep is considered "medicine" here.

Q46A. Straightforward. Be sure to enter the number on the correct line.

Q47. This question shouldn't pose any problem.

Q48A, B, C,
and D Read these statements clearly and carefully. If R states that he/she partly agrees and partly disagrees to a given statement, circle code 3 and DON'T probe. However, you should probe once if R says "don't know" or "not sure." If he still cannot give a codeable answer, record as DK, NA or whatever he says. The middle category is only for those who give this as their first response to any of these questions.

Emotional problems often come up in life. A person might be very unhappy, or nervous and irritable all the time. Sometimes there are problems in a marriage--a husband and wife just can't get along with each other. Or sometimes it's a personal problem with a child or a job. I'd like to ask you a few questions about how you and other people handle emotional problems like this.

If R asks what is meant by emotional problems, the standard answer of "...whatever is means to you" is to be given.

Q50.

There is to be no probing on this question. As there is no card shown here, it might be best in some instances to write R's answer(s) verbatim below and circle the appropriate codes when you edit the questionnaire. If R states "psychiatrist," then item B is what we want. However, if he says "psychiatrist at County General Hospital," then item L below is the right answer. Be sure to specify if "hospital," "clinic," or "other" is mentioned.

Chart for Q59A, Q59B, Q59C, Q59E and Q60

This is the chart you will be recording on. We have filled it in to give you some examples of how it works.

61. Considering this community as a whole, what percent of people do you think could use some help with emotional problems or family troubles?

_____ %

62. (SHOW CARD #62.) Considering the public funds spent on all these problems together, on which age group do you think the most public funds should be spent:

- children and adolescents under age 18..... 1
- adults aged 18 to 64 or..... 2
- adults aged 65 and over?..... 3

63. Do you think that public funds should be spent to try to prevent mental illness?

- YES..... 1
- NO..... 2
- DON'T KNOW..... 8

64. We'd like to know how you'd feel about a person after finding out that he had been a patient in a mental hospital. Would you feel:

	YES	NO	DK
uncomfortable having this person <u>working</u> with you?	1	2	8
uncomfortable having this person <u>living next door</u> to you?	1	2	8

65. Some people say that health care would be greatly improved if it were possible to computerize the medical files of every hospital in the country. How do you feel about this? Do you:

- strongly agree..... 1
- agree..... 2
- disagree..... 3
- strongly disagree?..... 4
- CAN'T DECIDE..... 5

- Q61. Community is a word which must be interpreted by R, "... whatever it means to you."
- Q62. Make sure R is looking at Card #62 which lists several problems in the area of mental health. We want to know on which age group R thinks the most money should be spent to solve these problems.
- Q63. Self-explanatory.
- Q64. There are actually two questions here. Circle R's answer to the first before asking the second one.
- Q65. This question should pose no problem. Read all the way down to the question mark before accepting a response from R.

INTERVIEWER OBSERVE R'S ETHNICITY AND CIRCLE ONE:

R IS WHITE.....	ASK Q66A.....	1
R IS BLACK.....	ASK Q66B.....	2
R IS LATIN/MEXICAN-AMERICAN.....	ASK Q66C.....	3
R IS OTHER ETHNICITY.....	SKIP TO Q67.....	4

Now I would like to ask you a question about relationships with other people.

66A. Who do you think you could more easily become friends with:

a <u>Negro</u> with the <u>same</u> education and income as you, or.....	1
a <u>white</u> person with an education and income <u>very</u> different from yours?.....	2
NEITHER.....	3
BOTH.....	4
DON'T KNOW.....	8

66B. Who do you think you could more easily become friends with:

a <u>white</u> person with the <u>same</u> education and income as you, or.....	1
a <u>black</u> person with an education and income <u>very</u> different from yours?.....	2
NEITHER.....	3
BOTH.....	4
DON'T KNOW.....	8

66C. Who do you think you could more easily become friends with:

an <u>Anglo</u> with the <u>same</u> education and income as you, or.....	1
a <u>Latin person</u> with an education and income <u>very</u> different from yours?.....	2
NEITHER.....	3
BOTH.....	4
DON'T KNOW.....	8

67. In the past year, have you or anyone in your family had any special problems come up because of computers?

YES.....ASK A.....	1
NO.....SKIP TO Q68.....	2

A. What was that problem?

NOTE: Read instructions carefully. We are depending on you to observe R's ethnicity, circle the proper code and ask the version of Q66 that applies to him (i.e., either Q66A, Q66B, or Q66C). Remember, Q66 is asked according to your observation of R's ethnicity. Surname and/or the ethnicity of other household members has no bearing on this question. Q66 is not related to any other question on ethnicity in this survey. If you find you have made an incorrect observation of R's ethnicity on Q66, DO NOT go back and change it. Let the response stay as it is; we can take care of it when we analyze the data.

Q66A,B,C.

Read the selected question carefully. If R cannot choose, probe only once before accepting a "NEITHER," "BOTH," or "DON'T KNOW" response.

Q67.

Any problem having to do with computers is to be taken as a "YES" answer, regardless of how small it may seem to you or the respondent.

Q67A.

Record the nature of the problem(s) described by R. Be sure to show final probe so we know you have a complete answer.

68. (SHOW CARD #68A.) On this card is another pair of statements. I'll read them while you look at them, and then would you tell me which one is closer to the way you feel. (AFTER R CHOOSES, SHOW CARD #68B.) Here is another pair; which is closer to the way you feel? (AND SO ON FOR CARDS #68C-D.)

A. It is not always wise to plan too far ahead because many things turn out to be a matter of good or bad fortune anyhow..... 1

or

When I make plans, I am almost certain I can make them work..... 2

B. The world is run by the few people in power and there's not much the little guy can do about it..... 3

or

The average citizen can have an influence on government decisions.. 4

C. It is only wishful thinking to believe that one can really influence what happens in society at large..... 5

or

People like me can change the course of world events if we make ourselves heard..... 6

D. As far as world affairs are concerned, most of us are victims of forces we can neither understand nor control..... 1

or

By taking an active part in political and social affairs, the people can control world events..... 2

69. (SHOW CARD #69A.) On this card is a pair of statements. I'll read them while you look at them, and then would you tell me which of these statements comes closer to your opinion. (AFTER R CHOOSES, SHOW CARD #69B AND REPEAT ABOVE.)

A. By automating many tasks in factories and offices, computers nowadays have freed people to do more interesting work..... 3

or

By automating various jobs, computers too often have taken away much of the freedom of choice that made work interesting..... 4

B. By using computerized information files, people in government often are able to make fairer decisions..... 5

or

Too often, by using incorrect information from the computer, government officials make unfair decisions..... 6

Q68.

These are what we call "forced-choice" questions. That is, we are really not giving the respondent an opportunity to say he doesn't know. Although R may not thoroughly agree with either statement, repeat that we want "the response which comes CLOSEST to the way he feels." However, if R insists he cannot choose, do not force him and write in DK or BOTH/DEPENDS, whichever is appropriate.

Q69.

See instructions for Q68.

70. (SHOW CARD #70A.) On this card is a pair of statements. I'll read them while you look at them, and then would you tell me which one is closer to the way you feel. (AFTER R CHOOSES, SHOW CARD #70B.) Here is another pair; which is closer to the way you feel? (AND SO ON FOR CARDS #70C-F.)

A. What happens to me is my own doing..... 1

or

Sometimes I feel that I don't have enough control over the direction my life is taking..... 2

B. Knowing the right people is important in deciding whether a person will get ahead..... 3

or

People will get ahead in life if they have the goods and do a good job; knowing the right people has nothing to do with it..... 4

C. I have often found that what is going to happen will happen..... 5

or

Trusting to fate has never turned out as well for me as making a decision to take a definite course of action..... 6

D. It is impossible for me to believe that chance or luck play an important role in my life..... 1

or

Many times I feel that I have little influence over the things that happen to me..... 2

E. Leadership positions tend to go to capable people who deserve being chosen..... 3

or

It's hard to know why some people get leadership positions and others don't; ability doesn't seem to be the important factor..... 4

F. There's very little that persons like myself can do to improve world opinion of the United States..... 5

or

I think each of us can do a great deal to improve world opinion of the United States..... 6

Q70.

These are what we call "forced-choice" questions. That is, we are really not giving the respondent an opportunity to say he doesn't know. Although R may not thoroughly agree with either statement, repeat that we want "the response which comes CLOSEST to the way he feels." However, if R insists he cannot choose, do not force him and write in DK or BOTH/DEPENDS, whichever is appropriate.

71. Now, we'd like to ask you some general questions about education and employment. What was the highest grade in school you completed?

Q71. Circle number of the highest grade in school R has completed. Please note that codes 13 to 16 represent 1, 2, 3 or 4 years of college.
Codes 17 to 20 or more represent number of years (1, 2, 3, 4 or more) in graduate school of one sort or another (e.g., medical school, law school, etc.)

Pay very careful attention to the instructions in this box. If R has specifically completed 13, 14, or 15 years, you are to ask both parts A and B. But if R has completed 10, 11, 12, 16, 17, 18, 19, 20 or more years, you are to ask only part B. Lastly, if R has completed 9 years or less SKIP to Q72.

Q71A. Be sure to show the card for this question. If R gives two or more types of schooling, record the type of school he most recently attended.

Q71B. Self-explanatory. Record and go on.

Q72. Any type of classes, training or instruction is to be taken as a "YES" response. Watch the skip pattern carefully.

Q72A. The complete name of the school or organization is desirable. If R is ambiguous, try to obtain as much information as possible such as location and nature of the instruction.

Q73. We want to know here what reason(s) R has/had for taking this instruction. Be sure to specify in detail if R offers an "other reason."

Q73A. Self-explanatory. Record and go on.

74. Does this kind of instruction normally lead to a degree, certificate, or diploma of some kind?

- Q74A. Obtain the name of the specific certificate or degree such as A.A., B.S., Certificate in Real Estate etc.

After referring to Q71, be sure to follow the SKIP pattern in the box.

- Q75. Read down to the question mark and follow the SKIP pattern.
- Q75A. The response here can be a specific date, some unspecific time in the future or a condition or set of circumstances which will determine when R starts.
- Q75B. Try to obtain a specific school name. If this isn't possible, get the type of school (state college, university) that R would like to attend.
- Q75C. Record the response and follow the SKIP pattern.
- Q75D. Similar to Q74A, the name of the specific degree is required (e.g., M.S., B.A.). If this question is to be answered, note the SKIP instruction in the box.
- Q75E. Self-explanatory.
- Q76. Record the response and follow the SKIP pattern.
- Q76A. Read all the way down to the question mark.
- Q76B. See instructions for Q75D.
- Q76C. Generally, part-time refers to less than twelve hours of classes each week. Conceivably, this question may be answered by someone currently in college planning full-time attendance in the near future.

77. Do you think our publicly supported colleges and universities are getting too little money from the state, too much money from the state, or is it about right?

- TOO LITTLE..... 1
- TOO MUCH..... 2

81. What kind of work do/did you do? (e.g., electrical engineer, stock clerk, typist, farmer, etc.) PROBE IF VAGUE: What do/did you actually do?

- Q77. The schools specifically referred to in this question are the University of California and the California State Universities and Colleges.
- Q78. Read all the way to the question mark before accepting R's answer.
- Q79. R's knowledge of computers is unimportant in this question. The computer in this instance has been set up to give instructions to R over his home television set.
- Q80. Ask for employment status at the time of the interview and follow SKIP pattern of each question.
- Q80A. Straightforward. Read all the way to the question mark. If this question is answered, follow the SKIP pattern.
- Q80B. Straightforward.
- Q81. Probe to get a clear description of R's job. We need a general description (e.g., engineer) and a specification of what R actually does/did on the job, i.e., his major duties or tasks at work. Answers such as "clerk" or "truck driver" are not acceptable without a probe about activities on the job. Here are some other examples. For occupations such as "nurse" or "teacher" record the type of work, i.e., "teacher, elementary" or "nurse, licensed vocational," etc.
- If R does/did more than one kind of work ask for his major occupation, the one he does/did most of the time. If he does/did both jobs an equal amount of time, record information only about the job he has held (or did hold) for a longer period of time.
- Probe until you are satisfied that you have a clear description of R's job and its major tasks.
- For past employment (e.g., retired respondents) emphasize that you would like to know about R's major occupation during his employment history even though this may not necessarily be his last occupation.

Q82A. Straightforward.

Circle the appropriate code in the box after reading your SKIP instructions carefully.

Q83. Part-time as well as full-time jobs held for any length of time by R are to be included.

Follow the SKIP pattern being sure to circle the appropriate code in the box.

Q84. It is possible for R to mention two or more years. Enter all years that apply on the line just below. We are only interested in the latest period of unemployment.

Q85A

Q85A. Try to obtain an exact figure if possible. Otherwise, ask R ABOUT how much money. All expenses, in any way related to that job hunt, are to be included in the dollar amount given.

Q85B. Again try to obtain an exact number if possible. Listen carefully to R's answer making sure he/she has mentioned days or hours in the response before entering that figure on the correct line.

Q85C. The word effort is to be interpreted by R. If he asks what it means say "Whatever it means to you."

Refer to Q80 and if R is code 3 (currently unemployed) SKIP to Q90.

Q86. We want to know the number of weeks (or days) that R was unemployed between his present job and the job he held before being unemployed.

87. Was the take-home pay on the job you had before you were unemployed higher or lower than your present job?

- HIGHER..... 1
- ABOUT THE SAME..... 2
- LOWER..... 3

88. What kind of work did you do in that job (e.g., the one you had held before you looked for work)?

89. What kind of business or industry was that?

2246	2327	2362.01	5351.01	6008.01

If R does not live in one of these designated tracts, SKIP TO Q97

Q96.
INSTRUCTION

Be sure R is looking at Card #96. This question is to be asked only about the head of the household. Some respondents, (especially, the retired) may be reluctant to state what the head's earnings are at this time of year, since they may not yet have filed income tax returns.

NOTE: If R lives alone, be sure to SKIP to Q97A. Otherwise, continue with Q97.

97. Now, please look at the Income Card (SHOW CARD #97) and give me the letter of the income group that includes the total income for your whole family for last year, 1972 (before taxes). That figure should include dividends, interests, salaries, wages, profits, pensions, and all other income.

Q97. Be sure R is looking at Card #97. Mark the code for the income group which respondent indicates as his. Do not make estimates for the respondent. Some respondents (especially the retired, for example) may be reluctant to state what their earnings are at this time of the year, since they may not yet have filed income tax returns.

SPECIAL NOTE: If unrelated people (e.g., roommates) are living in the dwelling unit, ask for the respondent's income ONLY. We are interested in R's income, NOT the combined income of the unrelated persons in this dwelling unit.

Q97A. This question is to be asked of those who answered Q96 and/or Q97. Enter the number of dependents R gives you. If this answer seems inconsistent with other responses, such as the number of persons living in the household, ask about the inconsistency. If it is not an error but would appear inconsistent (e.g., R supports mother who lives outside the household) note "OK" by the answer to Q97A.

Q98. Be sure R is reading Card #98 and circle all sources of 1972 household income he mentions. When he finishes, ask "What else?" to make sure he has not forgotten any income source. Be sure to circle code number, not letter.

Only if R asks, tell him that OAS is the California state-administered Old Age Services program. DO NOT volunteer an explanation of OAS.

SPECIAL NOTE: As in Q97, if unrelated people are living in the dwelling unit, ask for all sources of the respondent's income ONLY. We are interested in R's income sources, not the combined income sources of the unrelated persons in this dwelling unit.

Q98A. Enter the letter from Q98, not the number code.

Q99. Straightforward. If R says "don't know" record as such.

CODER I.D. _____

ITEMS A,B,C Standard background information about the respondent. Item C has the ethnic categories used by the Census. You will note we no longer have "White, Anglo." You will code this item according to surname of your respondent, not by observing his ethnicity. For example, if R is black and has a Spanish surname, circle code "2": If R is Mexican-American with the last name "Smith," circle code "4." Item C should pose no problems if you remember to code according to R's surname only.

ITEMS D,E,F Questions about the interview situation.

ITEMS G,H,I Specific questions about possible influences on the respondent's answers and your judgement of the validity of the information he gave you in the interview.

INTERVIEWER COMMENTS

This page is for your comments and for recording answers to Item H on Page 41.
Also record any special circumstances or reasons for inconsistent answers.
This will simplify the verification process.

Thank you for your cooperation. May I have your name and telephone number just in case my office wants to make sure that I was here to do this interview?

SURVEY RESEARCH CENTER
LOS ANGELES, CALIFORNIA 90024

Dear Los Angeles Area Resident:

Seven million people live in Los Angeles County. We work at different jobs, attend various churches, and live in different communities. We also have different opinions about important national and local issues, and about the problems facing the County and our own communities. Because we feel your opinions are important, the Survey Research Center conducts a County-wide survey twice each year to give citizens the opportunity to make their views known.

Your household is one of 1600 we have selected to participate in the Los Angeles Metropolitan Area Survey (LAMAS). It is part of a scientifically selected sample of Los Angeles County prepared from lists of addresses in each neighborhood. We will ask for your opinions on a variety of topics, such as the quality of public services, health care, and things that please or displease you about your neighborhood.

In the next few days, one of our interviewers will call at your home. Your interviewer will carry an identification card like the one shown below; it will bear the same name as the example. You will be asked for some information about your household, and we ask your cooperation in answering these questions in order to select the member of your household to be interviewed. Our interviewer will also be pleased to answer any questions you may have about the survey. The sheets accompanying this letter will give you some information about the Survey Research Center as well as a sample of findings from previous Los Angeles Metropolitan Area Surveys which you may find interesting.

I wish to assure you that opinions and information you provide will be held in strictest confidence and will be published only in the form of statistical summaries such as the sample attached. No individuals or families will be identified. However, to present an accurate picture of Los Angeles County and its people--including your neighborhood--the cooperation of each household is most important.

Let me thank you in advance for your cooperation. Your interviewer is:

Sincerely,

Douglas Scott
LAMAS Study Director

Directions For Time And Expense Sheet

Below is a detailed explanation of the headings used on the Interviewers Time and Expense Report.

1. Each survey will be given a name and an SRC number (printed on each questionnaire) which are to be filled in at the top of the sheet.
2. Enter the month and year for which you are billing. You must submit a separate T & E for each survey. If you worked on two surveys in one month, then turn in two T & E's.
3. Enter the date on which you submit the T & E.
4. In column "Day" circle date of month you worked.
5. In column headed "Total Hours," show total number of hours you worked each day. Record minutes to the nearest quarter of an hour.
6. In column headed "Preparation, Study, Conference, Practice," enter number of hours that cover the following activities: studying, checking materials, addressing and marking letters to respondents, pre-editing questionnaires, practice interviews, etc. "Conferences" include training, briefing, debriefing, discussions with supervisors by phone or in person concerning specific surveys.
7. The column headed "Screening, Contacting, Locating," includes time spent looking for the right D.U., knocking on doors, getting information from neighbors, enumerating to determine correct respondent in household, making appointments, waiting for respondent (work done in field exclusive of actual interviewing time). This includes time within a tract, going from one D.U. to another. This does not include travel time to and between census tracts.

If screening is required on a survey, this includes number of hours spent in a household to determine if a longer interview is required.
8. In column headed "Interviewing," enter number of hours spent on actual interviews (e.g., if you conduct three interviews in one day, and two are 1 hour in length, and one is 90 minutes, you're total time for interviewing would be 3 hours and 30 minutes.
9. Under "Editing," enter total number of minutes or hours spent daily on editing or reviewing your day's work.
10. "Travel time " includes number of hours spent in driving from your home to your interviewing area, travel time between census tracts and travel time returning to your home. It also includes travel time to and from the university.
11. Record number of miles traveled daily in "Mileage" column.

12. In next column, enter the amount of miscellaneous expenses and use the following codes:

PK - parking expense PO - postal expense
TL - telephone expense

13. List the I.D. #'s of all completed interviews daily.
14. Do not include in your T & E report any time spent on correcting your own errors, whether it involves sampling, listing, or redoing whole questionnaires.
15. All time sheets should be mailed by the first of each month and must be mailed by the tenth of each month (closing day in accountant's office) or there will be a month's delay in payment.
16. Sign your name, address and phone number on every time sheet in ink. If you have incurred miscellaneous expenses, enter the total amount in dollars and the month for which you request payment and again sign in ink.

Field Office Memos

A. Interviewers' Time Sheets

Due to the confusion that has arisen on several occasions lately, we must set down a firm rule on due-date for the interviewers' time sheets.

"All time sheets should be presented to the U.C.L.A. Survey Research Center at the earliest possible date after the first of each month. Time sheets delivered after the fifteenth of the month following the month in which the work was performed, or time sheets which are mailed and postmarked later than the fifteenth of the month following the month in which the work was performed, will not be honored."

Please advise all interviewers of this regulation.

B. Interviewer Hours

It is a very firm university regulation that when you work in excess of 5 1/2 hours, you must show a 30 minute break on your time sheet. This has been explained at previous briefings, but lately several interviewers have been careless and have briefly entered a beginning time and an ending time for each work day. If the lunch break is not shown, the time sheet will be returned to you and payment will be delayed.

C. General Rules and Mailings

1. EDIT DAILY.
2. MAIL COMPLETED INTERVIEWS REGULARLY. If mail is not received weekly in our office, the interviewer will be replaced on the study.
3. MAIL REFUSALS IN IMMEDIATELY. In that way, we can arrange to recontact DU. Also, send in information on vacancies and "no such DU."
4. DO NOT SUBMIT INTERVIEWS WITH MISSING INFORMATION. If "no answer," indicate that you have asked the question. If information is missing, the interview will be returned to the interviewer, and corrections will be made at his/her own expense.
5. ALL TIME SHEETS AND MILEAGE REPORTS MUST BE SIGNED IN INK.
6. Letters and stamped SRC envelopes that you will be mailing to the respondents will be enclosed in your packet the day of the briefing. Our office will mail six for each interviewer so that you can start to work immediately. Please address all your envelopes so you can stagger and mail as needed to complete your assignment.
